CONFERENCE INTRODUCTION

- ◆ 2020 2nd International Conference on Resources and Environmental Research (ICRER 2020) is going to be held during **November 19-21, 2020, Xiamen University of Technology, China**. ICRER 2019 was organized by Xiamen University of Technology, assisted by Shandong University, South-South Collaborative and Sustainable Development Center and International Society for Environmental Information Sciences (ISEIS).
- ◆ Environmental Resources refer to the environment as a whole as the sum of resources. All kinds of natural resources, including water, air, land, animals and plants, minerals and their combination of various states, are the material basis for human survival and development. Irrational development and utilization of environmental resources have led to increasingly serious damage, such as water resource shortage and pollution, ozone layer destruction, soil desertification, forest area reduction, and the imminent exhaustion of some rare species and minerals, which will have a corresponding impact on human social progress and economic development.

GOOD NEWS

- ◆ Prof. Gordon Huang from University of Regina, Canada; Prof. Yongping Li from Beijing Normal University, China; Prof. Wang Shuguang from Shandong University, China have joined as the Keynote Speakers.
- ◆ Papers submitted to ICRER 2020 will go through peer reviewing process by international experts. Selected papers will be published in **IOP Conference Series: Earth and Environmental Science (EES) (ISSN: 1755-1315)**, which is indexed by **EI Compendex, Scopus, Thomson Reuters (WoS), Inspec, et al.**
- ◆ ICRER 2019 papers were included in **IOP Conference Series: Earth and Environmental Science Vol.432. (Index Information - EI Compendex - Scopus)**
